PROFESSIONAL SUMMARY

Motivated and forward-thinking ICT professional currently pursuing an Advanced Diploma in Information and Communication Technology (Applications Development). I bring strong academic knowledge combined with practical tutoring experience in Information Systems. Skilled in database development, software programming, and business information systems, I am passionate about designing efficient, data-driven solutions. I thrive in collaborative environments, communicate effectively, and continuously seek opportunities to grow both technically and professionally.

EDUCATION

- **Advanced Diploma in ICT (Applications Development)**

Walter Sisulu University | 2026 – Present

PROFESSIONAL EXPERIENCE

- **Information Systems Tutor**

Provide academic support and guidance to students in Information Systems modules. Explain database concepts, systems analysis principles, and business process integration.

Assist students with SQL queries, system documentation, and project development. Develop simplified learning materials to enhance student understanding and performance.

TECHNICAL SKILLS

- SQL (Database querying and development)
- Java Programming
- .NET Framework
- Oracle APEX
